RE: MB Docket No. 15-149

Tom Wheeler
Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear Chairman Wheeler,

As a member of the Florida House of Representatives and a former teacher, I am always looking for ways to improve education outcomes in the state. There are numerous ways to approach fixing the low test scores and graduation rates that plague underserved communities. These children need opportunities to improve their chances for success, and I strongly believe bridging the digital divide will provide this access.

I believe the merger of Charter Communications, Time Warner Cable, and Bright House Networks would improve technology access for many Florida students. Together as New Charter, the company would extend Bright House Networks' highly successful low-income program to consumers across the country. Bright House Networks has been a wonderful partner in Florida over the years, and I am confident that with New Charter's commitment and expanded resources, low-income families will have improved access to technology.

In addition to reaching out to low-income customers, New Charter would take up diversity programs in hiring, procurement, programming, and community investment. I want to encourage efforts like these, and I hope the value of diversity will be taken into account when reviewing the merger.

Sincerely,

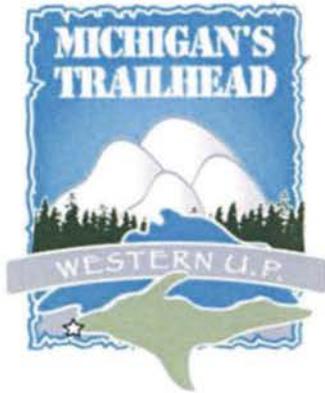

Representative Rene "Coach P" Plasencia

DOCKET FILE COPY ORIGINAL

Dear Chairman Wheeler,

Kindly treat this correspondence as the Western Upper Peninsula Convention & Visitor Bureau's support to the proposed merger of the Charter communications, Time Warner Cable and Bright House Networks. The resulting New Charter would benefit our remote areas to expand broadband coverage.

As an organization whose sole function is to promote year' round tourism, we have firsthand understanding of how important this would be for our visitors who vacation in our remote areas.

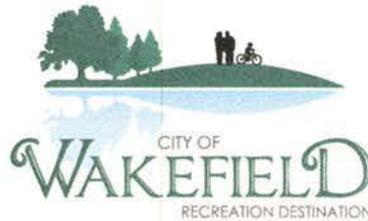

Access to high-speed internet will not only be critical for our visitors it will also be critical for our resort owners in the remote areas. With that said we ask the FCC to grant the approval for this merge.

Sincerely,

Donna Kauppi / Office Manager
Western U.P. Convention & Visitor Bureau

Re: MB Docket No. 15-149, Request for Approval

Dear Chairman:

The City of Wakefield is pleased to support Charter Communication's acquisition of Time Warner Cable and Bright House Networks.

We often talk about technology being the most important piece of economic sustainability. We hope that our rural and underserved community will benefit from increased access to affordable broadband coverage. Affordability is an issue for residential customers, while lack of access deters capital investment in our region. Charter's 2.5 billion dollar commitment to infrastructure is important in solving both of these problems.

We ask the FCC to grant the approval for this merger.

Sincerely,

Margot Anderson
City Manager

Mr. Tom Wheeler, Chairman
Federal Communications Commission
445 12th St. SW
Washington, D.C. 20554

Dear Chairman Wheeler:

It is a pleasure to endorse the anticipated merger of Charter Communications, Time Warner Cable, and Bright House Networks into New Charter. As a member of Maine's House of Representatives, I am driven to support companies that will increase economic development in our state.

As Time Warner Cable currently employs 900 residents, including a call center in Portland with 200 employees, I am encouraged to hear about New Charter's plans to eliminate overseas call centers and bring more jobs back to the U.S. This pledge is substantial and could be very favorable to the Maine economy.

Moreover, I am aware of New Charter's prospective plan to fully digitize its new network so that Time Warner Cable customers can benefit from faster and more reliable broadband connections which play a critical role in education, health care, and job training. I am likewise pleased that New Charter will actively engage with consumers of limited means by offering low-income households a discounted price on high-quality broadband service. This program will assist those residents in acquiring access to the power of the Internet.

Your time and attention to this communication are appreciated, and I hope to learn of your approval of this merger in the near future.

Respectfully,

Robert A. Foley
State Representative
