RE: Proceeding No. 15-149

To whom it may concern:

I am excited to see that Charter is filing for a merger with Time Warner and Bright House to make a larger company with even more capabilities to serve the "underserved". The United States has a lot of rural areas that are not being served and I hope this merger will help solve that problem.

I am part of a group, the Gull Lake Area Community Broadband Team, which has searched for the last few years to find service providers for the rural areas of our 6 Townships in Southwest Michigan. Charter, through Marilyn Passmore, has been a part of the group and has provided some great input in our search.

I am also familiar with Time Warner in other areas of the country as I have family members that have their service. If this merger can reduce their costs and enhance their service this will benefit them as well.

It is great to see the commitment of bringing jobs back to the United States. We are all working to better our lives through employment and access to services.

Thank you for taking time to reading this letter in support of the merger.

Marsha C Drouin

Richland Township Treasurer
Member of Gull Lake Area Community Broadband Team
