Dear FCC,

My name is Luis Estrada and I live in Miami Gardens, FL.

The principles of user choice and control are vitally important for a vibrant wireless ecosystem. But as written, the NPRM threatens to undermine these ideals by limiting what users can do with their devices. That's a concern, because I want to be able to update my own wireless software?not rely on slow manufacturers shipping updates.

The draft rules could enable device manufacturers to forbid third-party software, which would keep me from using my custom wireless configuration.

I don't understand why this proposal is even being considered, for more money, more power, or just to shut some of us up? Well, it won't stand, I can not allow this to go unnoticed I will be telling my friends about this and how much of an outrage it is. Good day

Sincerely,

Luis Estrada
