RE: Proceeding No. 15-149

Dear Chairman Wheeler:

On behalf of the Greater Brookfield Chamber of Commerce I am writing today to strongly encourage your support of the merger between Time Warner Cable, Inc. and Charter Communications, Inc. This merger promises to create a new company with broader reach, upgraded service, and improved customer service. Regardless of the business sector, our employers rely heavily on broadband, and this merger will improve service and connectivity in our state. With expanded coverage, small businesses will experience greater efficiencies with increased connectivity, which will serve to strengthen our regional infrastructure and ensure we remain on the cutting edge of information technology products and services.

We hope you will support this merger because this is exciting news for southeastern Wisconsin's small business. Thank you for your consideration.

Carol M. White
President/CEO
Greater Brookfield Chamber of Commerce
