Dear FCC,

My name is Susan Andersen and I live in West Fargo, ND.

The principles of user choice and control are vitally important for a vibrant wireless ecosystem. But as written, the NPRM threatens to undermine these ideals by limiting what users can do with their devices. That's a concern, because I want to be able to update my own wireless software?not rely on slow manufacturers shipping updates.

The draft rules could enable device manufacturers to forbid third-party software, which would make me feel less safe about the wireless networks I use and operate.

I don't want companies or the government to control my access to the Internet or sway my use of said net with prepaid company time. If I wanted that, I would subscribe to cable tv.

Sincerely,

Susan Andersen
