Dear FCC,

My name is Kelly Rose and I live in Lincoln , DE.

The principles of user choice and control are vitally important for a vibrant wireless ecosystem. But as written, the NPRM threatens to undermine these ideals by limiting what users can do with their devices. That's a concern, because I want to be able to update my own wireless software?not rely on slow manufacturers shipping updates.

The draft rules could enable device manufacturers to forbid third-party software, which would make me feel less safe about the wireless networks I use and operate.

If I could not keep in touch with things that matter in my life at the only price I can afford (free) then life would suck. It would feel so pointless to be living in such a time of great creation but only those who can afford a fair entertainment budget can have fun. Its the wrong direction to be going for technology. It is supposed to keep us united.

Sincerely,

Kelly Rose
