Chairman Wheeler,

I'm writing to urge you to restore broadband competition by fixing the broken market for high-capacity broadband lines. The FCC must address anti-competitive behavior in this market to reach its goal of delivering better, faster, cheaper broadband to all Americans. The future of our information economy depends on it.

For many of us seniors it's our best road to friends, family and a richer life. Other roads begin to fade as our eyesight limits our driving abilities.
