RE: MB Docket No. 15-149

Tom Wheeler
Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear Chairman Wheeler,

As a member of the Alabama House of Representatives, I am committed to advocating for consumer issues, and believe it is critical that government leaders support policies which ensure Americans are granted the best services available at reasonable market prices. I am pleased to support the proposed New Charter because I am certain it would benefit my constituents and customers across the country.

New Charter would include Charter Communications, Time Warner Cable, and Bright House Networks. The company has described in detail its plans to improve customer care in the cable broadband industry, including its effort to boost domestic customer call center staff. This is a significant move that will contribute to valuable job growth.

New Charter's customer care model would also be shaped by a push for the latest innovations. For example, the company would invest heavily in broadband infrastructure upgrades, including both residential and commercial networks. The work would significantly improve broadband speeds and reliability, particularly for those living in rural and underserved regions. In addition, the company would ensure its quality products are affordable to American consumers. Its flat-rate pricing would provide clarity and uphold network neutrality with the added protection of no data caps or usage-based bills.

I believe New Charter would provide many benefits to consumers in my district and across the country. I encourage the commission to recognize the positive efforts New Charter has put forth in its public interest statement, and urge the approval of the merger.

Sincerely,

A handwritten signature in blue ink that reads "Tim Wadsworth".

Rep. Tim Wadsworth
Alabama House of Representatives
