Dear FCC,

My name is Robert Dillow and I live in Clayton, DE.

The principles of user choice and control are vitally important for a vibrant wireless ecosystem. But as written, the NPRM threatens to undermine these ideals by limiting what users can do with their devices. That's a concern, because Net neutrality

The draft rules could enable device manufacturers to forbid third-party software, which would Net neutrality

Please dont let net neutrality change it will causes a lot more then you think people meet and make new friends everyday and use the internet for everything else thank you

Sincerely,

Robert Dillow
