Marxist, socialism fails in every country. Democratic party wants a socialist USA. The Constitution says if this happens take up arms and kill all democrats advocating the overthrow of the USA and all others that agree with dems, especially any misguided presidents first, then all members of congress who've been indoctrinated for the one party rule called communism. Abide by the Constitution, hold onto your weapons, have it loaded and ready to take back your country. Madison and Jefferson would be proud of me.
