As a private citizen, I oppose this merger for two reasons. First, increased monopoly power and reduced competition in public media can never be a good thing. Second, it is my understanding that Charter Communications is really biased toward independent news programming in general, and has informed One America News (OANN) specifically of its intention to refuse its programming. Since OAN is my and my family preferred news network, we would not wish this to happen for personal, as well as public policy considerations.
