To hear that the OANN network is been threatened to be dropped is ridiculous! WHY! What did they do,,,,,tell the truth. If people are paying for TV service they should have the choice if the what to watch the channel or network  
Its a damn shame that OANN isn't part of the public network. Because if it were I'm sure a lot more Americans would have a true understanding about what's really going on. Don't drop OANN is that clear.

The Daily ledger w Gram is the best news delivery I ever came across this far in life. He is truth telling in a way that is refreshing.

Should this happen I will drop charter and Comcast witch I have in Florida and change to At&t. I will also encourage others to do the same. as I tell everyone to watch the daily ledger.
