November 18, 2015

Sirs:

We are a small, rural public school system serving a student population of 95 in kindergarten through 12th grade in a community of about 870.

We have successfully participated in and benefited from the USAC's E-Rate program for many years, and it has become a very important source of financial support to this rural community. This year, because of a variety of issues and the growing demands on our small staff, we have missed the October 28th deadline to submit the FCC Form 472, "Billed Entity Applicant Reimbursement".

We have paid the service provider in full, and these approved reimbursements are extremely important if we are to maintain the quality of our school programs. Our service provider is currently holding the necessary forms and can process them very quickly, pending the result of this waiver request.

We are asking that you grant a waiver, to allow an invoice extension request, so we can file this FCC Form 472 as soon as possible. We expect to be able to file that request within 15 days, following the approval of this waiver request.

Here are other details that are pertinent to this request:

Name of Applicant: Pittsburg School District

Billed Entity Number: 121122

Billed Entity FCC RN: 0011993284

471 Application Number: 979112

Funding Request Number: 2667672

SPIN: 143032501

Funding Commitment Decision: 07/23/2014

As we stated earlier, these funds are extremely important to our small district. Thank you for your thoughtful attention.

Sincerely,

Cheryl Covill

Business Administrator, SAU 7
