Dear FCC,

My name is Gerardo and I live in Bakersfield , CA.

The principles of user choice and control are vitally important for a vibrant wireless ecosystem. But as written, the NPRM threatens to undermine these ideals by limiting what users can do with their devices. That's a concern, because The Internet cost me money limiting it will cause my internet service provider to lose customers.

The draft rules could enable device manufacturers to forbid third-party software, which would keep me from using the Internet.

No.

Sincerely,

Gerardo
