Dear FCC,

My name is Michael Sengelmann and I live in Columbus, OH.

The principles of user choice and control are vitally important for a vibrant wireless ecosystem. But as written, the NPRM threatens to undermine these ideals by limiting what users can do with their devices. That's a concern, because I want to be able to update my own wireless software?not rely on slow manufacturers shipping updates.

The draft rules could enable device manufacturers to forbid third-party software, which would make me feel less safe about the wireless networks I use and operate.

protect Net Neutrality. Don't Limit Internet usage. that is all

Sincerely,

Michael Sengelmann
