Re: Proceeding No. 15-149

Dear Mr. Wheeler,

I have been working with Charter for the past seven years. During that time I have had the pleasure of working with three different government relation specialists who have been able to assist me in resolving complaints and other customer issues within my township. The individuals Charter provided were able to assist me with prompt responses and positive results to my concerns.

Charter's proposed merger with Time Warner and acquisition of Bright House Network should offer additional benefits to consumers. Improved customer care from an American employee would be advantageous to our citizens while allowing for additional employment opportunities here in the states.

Improvements to cable service derived from Charter's proposed merger would be advantageous to Charter's customers. Therefore, I would like to offer my support to this venture.

Sincerely,

Kathy Thurman
