My name is Albert Hurtado. The FCC forced me to purchase a new television set based on the promise of more free over-the-air channels.

Do not shut down my local LPTV station. I want more free channels, not less.

I enjoy the variety of programming available through local, over the air broadcasts. Many provide locally oriented content.

They don't require special, expensive, satellite, cable or internet equipment.

Local Low Power Broadcasting makes news, entertainment and educational content available to those who can't afford those other methods.

Low-power TV stations that have operated in good faith and have complied with their license should be protected and kept on the air.

These types of pioneers and entrepreneurs helped the medium to develop and evolve. Which seems to be part of the American Heritage.

Thank-you for your consideration.
