I am SEVERLY opposed to the cable industries mergers. These big companies getting BIGGER & BIGGER, soon there will only be several companies controlling ALL TV content & their versions of the news. Big business should NEVER be emboldened to control our independent thinking. Prices are another major concern. Please hear the many voices of myself & many of my family, friends & fellow citizens. This control has to be stopped. Competition is the mainstay of America, it's what has & does make us strong in unity as a country. I thank you for granting me the opportunity of stating my opinions & feelings. One America News is my FAVORITE news TV programing. I would miss it terribly.
