I came upon One America News on Verizon Fios -It supplied excellent news stories with minimal commentary. It has a couple of commentary shows which I don't often watch, but I do appreciate the way they present news. As I travel, I have found no hotels with One America News as an option, I either here dragged out commentary on either the left of the right and stations like MSNBC or Fox News. Please require that if the merger takes place the Time Warner/Bright House to Charter Communications, that they be required to carry One America News as an independent privately owned news station. Thank you for considering my request.
