If there is a way to guarantee that family owned news stations will not be taken off air by allowing this then I am not against it. If that can not be done then it shouldn't happen. I definitely do not want Family Owned News Stations that are unbiased and just report the news to be taken off networks after merger. I am not informed enough if the merger is good or not for other financial reasons but from what I have read, in the past they have taken family owned unbiased stations off of networks. I can't watch or listen to stations anymore that only seem to bad talk one political party and not the other. I stopped watching the news for a long time for this reason. This includes stations that are reporting news in a way that helps the political party that I like. It is not fair or right and the news should be the news and that's it. With the big companies its all about numbers and entertainment. If you just look at the * commercials on Stations like * One America they take commercial air time and educate the public on our * History and * Bill of Rights. I think that is wonderful and speaks greatly of their owners who I know nothing about. They could have sold that air time to sell products or push political views on the public. I urge you in an age where more of our liberties are being taken away everyday to act for the people of the United States of America and not the 1% of our great country. I am a 35 year old hard working male and do not make a lot off money. Thank you for taking the time to read this.
