Dear FCC,

My name is Daniel Angel Munera and I live in Chapel Hill, TN.

The principles of user choice and control are vitally important for a vibrant wireless ecosystem. But as written, the NPRM threatens to undermine these ideals by limiting what users can do with their devices. That's a concern, because I don't want to see community innovations, such as mesh networking, get cut off.

The draft rules could enable device manufacturers to forbid third-party software, which would make me feel less safe about the wireless networks I use and operate.

As a starting video art student, net neutrality is the only way I can control my future career and be able to succeed in the industry.

Sincerely,

Daniel Angel Munera
