I want to support the independent news organizations like One America News Network.

I want the large news media organizations like Charter Communications to carry more independent news organizations like One America News Network. I do not want large news media organizations like Charter Communications to pick and choose the news that citizens consume so that it reflects Charter's own political agenda and/or affiliates.

Is this country still America? We cannot support monopolies and have smaller and independent organizations being unfairly forced out of the market. We live in the U.S. A not Russia or China. Protect our precious democracy!

Thank you!
Hai Nguyen
