RE: MB Docket No. 15-149

Tom Wheeler
Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear Chairman Wheeler,

I am writing as a regional director of Junior Achievement to support the proposed merger between Charter Communications, Time Warner Cable, and Bright House Networks. Junior Achievement teaches helps students from Kindergarten through high school with work-readiness, entrepreneurship and financial literacy skills. I support the merger because New Charter has committed to expand access to fast, affordable broadband.

Charter understands how crucial affordable broadband access is in the 21st century especially since many students need access to further their education and complete their homework outside of the classroom. After the merger, New Charter would broaden access for low-income customers by building upon Bright House Network's current program and expanding access to the New Charter footprint.

Moreover, Time Warner Cable and Bright House Networks customers would have access to Charter's customer friendly billing policy with fast entry speeds of 60 Mbps at a streamlined national price without many common hidden fees or contracts.

New Charter's emphasis on low-income and underserved populations to bridge the digital divide is a huge reason to support the merger. New Charter would receive fast and affordable internet that otherwise might not be available without the merger. I urge the FCC to consider this and approve the merger.

Sincerely,

A handwritten signature in black ink that reads "Susan Fillafer". The signature is written in a cursive, flowing style.

Susan Fillafer
