Mr. Wheeler, Data security transfer to charter of millions of Time Warner cable customers is that 100% secured. I'm a Time Warner cable customer I have not receive nothing from TWC as to this deal. NOTHING. Their taking our accounts to give it freely to Charter. Is this the way you do business? Do I as a TWC customer want Charter NO. Their the only cable customer I have to choice from did you ask me NO did TWC ask me No did they ask me to sell my account to charter NO. Can I afford Charter no do I want them to create a monopoly NO. I've been a TWC customer since 1980 I don't want Charter just like I didn't want Comcast. No charter unplug from the deal like the smaller cable markets grow. NO charter.
