Before there is approval for the mega merger of these two large Giants in the TV industry they must be controlled. They must allow all news services access to their audiences and not control news of different contents or opinions contrary to the views of the management of the merged companies. Freedom of Speech is a right given to all Americans and cannot be limited too a few controlled media organizations. Please do not vote to pass this merger until the management of the merged company agrees in writing to carry One American News as a licensed channel shown on their networks. Thank you.
