

60001348458.txt

I am against this merger. Less competition, fewer choices, and this will lead to even more of a concentration of power in the cable network industry.

If this merger of these two large cable networks is allowed, you need to make sure that independent news networks & other independent source of programing have access and are not ignored. Otherwise, we will be programed by the mega cable news networks. We need choices and different perspectives.
