

60001348502.txt

The 1st amendment guarantees FREE speech in this great nation. The people of this country need both sides of the story on important issues of the day, but I am afraid that is not the case. I sincerely hope you allow One America News to be included and treated exactly the same as any other media group. It is imperative that this is achieved for a proper balance of news reporting... the American people deserve no less.
