"Big Cable Mega-Mergers Are Challenging to One America News Network and Independent Programmers"

I enjoy the right as an American to pick the channels I enjoy watching. The merger may still happen, but we should not lose a Christian station like OANN.

If we lose the right to have independent stations, we turn into a dictatorship.

America was founded on GOD and Country and with the right to choose.

It seems that with a merger like this, the FCC would hear the voices of the US residents.

Keep station like OANN on the air and leave the rights to the people to decide their fate.
