I oppose this merger if it means discontinuing small networks like One American News Network. In doing so this is a clear violation of the 1st Amendment where freedom of the press is concerned. If they are left out economically due to this merger it is the same as not allowing a newspaper to be printed because someone bought the building where it's office is located.

I want to hear what One America News Network has to say, and I am a sovereign citizen of the United States of America. By disallowing this small family owned network to continue on a cable merger you are restricting my first amendment rights.

Respectfully,

Mr. Toth
