Tom Wheeler, Chairman  
Federal Communications Commission  
445 12<sup>th</sup> Street SW  
Washington DC 20554

**RE: Proceeding Number 15-149**

Dear Chairman Wheeler:

Charter Communications is a provider of cable, internet, and telephone service in Spring Lake Township. I understand there is a proposed merger between Charter, Time Warner and Bright House networks. This is great news for Spring Lake Township as we have a very good working relationship with Charter, and we are pleased that we will not be losing Charter as a business partner.

I have professionally worked with Charter Cable for many years in my role as a local government manager, and I have always found the company to be an excellent partner and a good corporate citizen.

The administration of Spring Lake Township supports the proposed merger as it will bring faster speeds and potential for low cost service to populations who need broadband access. This merger will set the stage for improved communications infrastructure throughout the Midwest.

Sincerely,

Gordon Gallagher  
Spring Lake Township Manager
