I am opposed to the merger of Time Warner and Charter if One American News will not be allowed to be on the initial line-up and be incorporated side by side with their other news services. A merger of this magnitude should welcome such opportunities and again demonstrates the ignorance of growth to smaller independent businesses by monopolizing the true voice of the people by manipulating the truth. It is and should be an 'absolute' to allow the truth to be heard, something that One American News has demonstrated on a consistent basis.
