Please think before you hand over the power of the airwaves to ANY single organization right or left centered. No monopoly means NO monopoly. You are forcing Americans to reconsider their faith in US Government's various arms along with its current administration. Do you really want to be responsible for being the tipping point where enough is enough. We Americans will stand for just so much, look back in history for the answer. You may think our attention is diverted by the current horrors being perpetrated by our enemies. We know who the REAL threat is. God please watch over us for the next 13 months. History will not be kind to this administration.
