Letter to FCC

Dear Sirs, Madams,

I totally oppose the merger between Charter Communications, Time-Warner, and Bright House. I listen to One America News Network. Charter Communications seems hostile to One America, a smaller network. If the merger is allowed to go through, the major channel I watch is likely to be deleted from the Charter Communications offerings. Charter Communications has had problems in the past just conducting their business for their own benefit. They are likely not to conduct it for the benefit of the public. Your charter is to protect access to the airwaves.

Please do not allow this merger between Charter Communications and Time-Warner.  
Thank you.
