

60001350569.txt

I started watching OAN (One America News) a few months ago and have found it to be my favorite news channel. It represents the values I have and would not want to lose access to OAN. I changed my former cable provider from Time Warner Cable when TWC tried to flex their muscle with some of the major networks. I feel the Charter Communications/Time Warner merger would not be in the best interest of the consumers. Thank you.
