A \$1.99/mo. per acct. fee will apply if you choose to receive a paper invoice with detailed billing. To avoid this fee, you can elect to receive Sprint's e-bill or summary format. Add'l charges may apply for phone number changes. **Prohibited Network Uses:** To ensure the activities of some users do not impair the ability of our customers to have access to reliable services provided at reasonable costs, you may not use our services in a manner that is unlawful, infringes on intellectual property rights, or harms or unduly interferes with the use of Sprint's network or systems. There may be a minimum annual term applied or continued based on a discounted device purchase. Restrictions apply. See store or [sprint.com](http://sprint.com) for details. You are responsible for all data activity from and to your device, regardless of who initiates the activity. Estimates of data usage will vary from actual use. Services are not avail. for use in connection with server devices or host computer applications, other systems that drive continuous heavy traffic or data sessions, or as substitutes for private lines or frame-relay connections.
