I believe it is unacceptable for Charter Communications to refuse to air One America News Network. I am not a big fan of news stations, but when I watched One America News for the first time, I was instantly hooked because it is the only news source that is politically incorrect and unbiased. I am unable to enjoy this wonderful station because of my cable company's ignorance; this is unacceptable. There are many individuals whom I know who are dropping their current cable provider and switching to Verizon Fios just to get One America News - I will do the same, unless other companies, including Charter, decide to offer this station.
