Re: **MB Docket No. 15-149**
Charter Communications Response to FCC's Information and Data Request

Dear Ms. Dortch:

Enclosed please find a disk containing supplemental materials from Charter Communications, Inc. in response to the Information and Data Request issued by the Federal Communications Commission ("Commission") on September 21, 2015, in the above referenced docket.

These supplemental materials consist of documents recently produced to the Department of Justice. We have excluded from the production documents containing video programming confidential information, which accounts for the gaps in the Bates numbering.

These supplemental materials, which contain proprietary and non-public information, are being submitted on a Highly Confidential basis under the Protective Order in effect in this proceeding. Consistent with the instructions in the Protective Order, the Highly Confidential version is being hand-filed under separate cover, and copies are being provided to the Media Bureau. We are also providing a copy of the disk to the Commission's vendor.
