Please stop the wrangling and deceptions in your business dealings that weaken the foundation of The USA. Look deep in your souls and make the decision that benefits honest, God fearing Americans who have been hungry - no, starved - for the reporting and editorials that reflect our conservative beliefs. Allow the independent programming like OAN to continue to help us know the "light" is still on. I was so excited when I first saw their format and Graham Ledger has been a shot of Conservative energy!!!!
Thank you.
