If you are going to allow the mega merger of Time Warner and Charter, please require them to include One America News Network. To exclude OANN would mean that independent news organizations will not have the right to present the news without bias. OANN's content is not controlled and is honest. It is our right as Americans to receive news as it truly is and not altered to suit the people who run the main stream media in our country. I am a combat veteran and I was always willing to give all so that we can adhere to our basic principles regarding this freedom. Please make the correct decision. Thank you.
