Do not allow One America News to be black listed by Charter Communications. Over the decades I have watched the presentation of news degenerate to where the only options available are actors portraying news anchors screaming corporate messaging at me. One America News and PBS News Hour are the only options available if one is looking for news presented in a and coherent manor. The loss of either one of these news outlets would be negligent in my view.

As for the merger of Charter Communications, Time Warner and Bright House; I do not support this action. Since the inception of cable television, competition has always been limited and the result is higher costs to consumers and a ?take it or leave it? choice. I know there are many issues the FCC must consider when approving or disapproving mergers that I am not aware of and do not consider, but limited choices and lack of competition always leads to higher costs for the customer.

Please choose wisely and require cable companies to offer independent news and independent programming choices for consumers. I want Charter to take action to insure that family owned and independent programming networks such as One America News Network are treated fairly and protected.

V/r,

Paul Leckinger
