To whom it may concern,

I am generating these comments to prevent this merger from not carrying independent cable programming networks such as One American News Network. I believe it is the duty of Charter Communications to carry independent cable programming networks such as One American News Network. We need to include more programming like this so we can have a balance of news reporting and commentary which of late has become a bastion of radical left wing distortion of the news. People need diversity in reporting in order to make informed decisions that will better their lives.
