Chairman Wheeler,

I'm writing to urge you to restore broadband competition by fixing the broken market for high-capacity broadband lines. The FCC must address anti-competitive behavior in this market to reach its goal of delivering better, faster, cheaper broadband to all Americans. The future of our information economy depends on it.

I HAVE EXPERIENCED OVERCHARGING BY COMCAST & AT&T. When trying to correct the inaccuracies in billing they just told me I was wrong. Even though I my billing history proved my point. The "customer service rep" in India told me he couldn't verify that because he had no access to my bills. WTF? REALLY. STOP THIS NONSENCE. They send our jobs overseas and steal our money. WHO is RUNNING THE FCC? OH WAIT...COMCAST? Brenda Owens
