Dear FCC,

company merger is sometimes necessary in order to save independent companies and there employees from bankruptcy. however the merger also can hurt other people such as the customers, and that's exactly what will happen if you drop the O.A.N. network. i am a very big fan of this network because it doesn't hide the truth, and i agree with its views on all subject matter so far. i respectfully urge the FCC to comply with this request to keep the O.A.N network fully available to its loyal customers. i thank you for consideration and time on this matter.

yours truly,
Ron Rivera
