

RE: MB Docket No. 15-149

Tom Wheeler
Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear Chairman Wheeler,

As a member of the Wyoming House of Representatives and Chairman of the Joint Corporations, Elections and Political Subdivisions Committee, I would like to add my support of the proposed merger of Charter Communications, Time Warner Cable, and Bright House Networks into *New Charter*. I believe it is my responsibility to support policies, endeavors, and opportunities which benefit my constituents as the residents of the State of Wyoming. I believe this merger will strengthen our economy and maintain open Internet for our future.

As a resident of Cheyenne, we are fortunate to house a Charter call center for video repair. As a result, our citizens have enjoyed good paying jobs technical jobs with benefits, and training and opportunities for advancement. *New Charter* has committed to create thousands of similar jobs after the transaction by bringing Time Warner Cable call centers back to the United States. Not only will this lead to job growth, but I believe it will improve overall customer quality and service by using American and Wyoming workers.

Additionally, I feel comfortable with *New Charter's* commitment to protecting a free and open Internet. As is their practice today, the combined company has pledged not to block or slow down Internet traffic or engage in paid prioritization. I believe the transaction is in the best interests of my constituents and the country as a whole; I ask that you approve the merger.

Cordially,

Daniel Zwonitzer
District 43, Wyoming House of Representatives
Chairman, Committee on Corporations, Elections & Political Subdivisions
