RE: MB Docket No. 15-149

Tom Wheeler
Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear Chairman Wheeler,

Established in 1968, the Park South YMCA is a multi-use facility that offers full day preschool, school-age and teen after school, and health and wellness programs, as well as a fitness facility, a computer lab, terrarium gardens, outdoor fields, and a commercial kitchen. We are located in one of Dallas' more economically challenged neighborhoods, and our services are often a lifeline for residents. Our network of support is extensive, and we are committed to meeting all the needs of our local community.

Our leadership team is committed to providing affordable access to everyone. We try to fill a gap in the lives of area residents, and we believe New Charter would provide important assistance in our efforts to deliver STEM education programs. We also believe that all households should have access to quality broadband, a notion New Charter clearly supports.

We respectfully ask the commission to support initiatives that seek to improve the lives of underprivileged youth through the approval of New Charter.

Sincerely,

Rodrigua Ross
Executive Director, Park South YMCA
