Hello. I was so pleased when I found this station on my cable menu. It is a breath of fresh air to have a station that not only informs me with a great variety of national and international news, but also provide great historic and constitution information during the breaks. I am an Independent (unenrolled in Ma.) voter and am so tired of the mainstream media and their bias reporting. I fully support this independent company and look forward to watching their programs no matter who is my tv provider.

Sincerely,
Bill Jarnagin
