Schools and Libraries Program: CC Docket No. 02-6

We are writing an appeal in order to receive funding. We attempted to file Form 471 in the spring, but had difficulty with the online process and manipulating the form properly. As a result, we filed out of window, one day after the deadline. Please consider our Form 471 – Application Number 1051615, Funding Request Number 2872894 (per your customer service representative) even though it was late. We have already begun receiving services from our provider and have paid for the first two quarters.
