The only choice I have for cable is Time Warner Cable. So is this fair to customers like me to transfer all of my data account to Charter No. what about affordability of Charter prices which I looked online No i can't afford Charter. This is not fair marketing for the small cable telecom companies. I have not received anything in the mail from TWC about the deal or my private information is going to charter. I can't afford charter and neither can this country. This would create a monopoly and the prices would not be regulated there not now. If time Warner cable didn't get Comcast they should not get Charter. Vote No deal..
