There has been an issue related to the misuse of fiber optics and microwaves communications, regarding that this is related to my own I got to that recently like yesterday between 10:30 pm and 12:00 pm from today, was to many people chanting and create a community behavior different intended for their own purposes and for that reason I already fill complaint, regarding for the situation, they were making reclamation on the name of Dionisio Escobar Blanco to create on my identity a federal case or class law suit, on the same purpose of communications relying on a supposedly witness program between the DEA and Police of Puerto Rico all this happens when I get to sleep on the same purpose.

I have been making affidavits and making all clear to my self to the CIA, knowing that the main basic understanding is the communication itself when comes the use of satellites, fiber optics and microwaves I have been on the same situation like the last 10 years and it's comes abroad that, my whole pathways in my brain got to be affected is to many years on the same basis, on the other hand I got a bullet in the head and in my right buttock other bullet and I have been injected with fiber optics and radio frequency for to many time, this whole situation has to come to and end and for this reason is the main ultra communications system that they do not want to overcome, just to claim upstate in New York, other thing I live in the Orange community in Orlando in Florida by the postal code 32807.
