Re: *Facilitating the Deployment of Text-to-911 and Other Next Generation 911 Applications*, PS Docket No. 11-153; *Framework for Next Generation 911 Deployment*, PS Docket No. 10-255.

Dear Ms. Dortch:

The Alaska Wireless Network, LLC (“AWN”), by submission of this letter, confirms that it is able to respond to any PSAP request for text-to-911 service within six months, as required by the Commission’s Rules.

AWN filed a petition for waiver on December 31, 2014, asking the Commission to waive Section 20,18(n)(10)(i) of its Rules to permit AWN additional time to implement a workable solution for text-to-911 location and routing.¹ On November 19, 2015, the Commission granted AWN’s petition, and conditioned that grant on submission by AWN of a final certification of text-to-911 readiness.² This letter serves as that certification.

Please contact me with any questions.

Sincerely,

Kristine Laudadio Devine
Counsel to the Alaska Wireless Network, LLC

¹ Petition for Waiver of the Alaska Wireless Network, LLC, PS Docket Nos. 11-153 & 10-255 (Dec. 31, 2014).

² *Facilitating the Deployment of Text-to-911 and Other Next Generation 911 Applications, Framework for Next Generation 911 Deployment*, Order, DA 15-1335, PS Docket Nos. 11-153 & 10-255, ¶ 1 (rel. Nov. 19, 2015).
